

Dec Group announces the end of its distributor agreement with De Dietrich Process Systems Inc.

Dietrich Engineering Consultants (Dec Group) has reached an arrangement with DDPS to end its exclusive distribution agreement in the United States, Canada and Mexico.

As of today, please contact Patrick Mulvey for: spare parts, technical support, service equipment rental and all your powder handling and containment needs

Since 1999, Dietrich Engineering Consultants have successfully marketed their pathbreaking technology for powder handling solutions through DDPS, in particular the patented PTS Powder Transfer System for the safe conveying of bulk materials. Dec is a leading single source global provider of customized solutions in all areas of bulk solids handling, including filling and emptying, dosing, mixing, sampling, micronizing and containment.

In 2009 the Dec Group opened the Dec US facility (with test labs), in Brick NJ, to provide improved service to its customer base in the US, Puerto Rico, Canada and Mexico. This facility is also where we provide technical and sales support for our successful micronizing and isolator technologies.

We look forward to supporting you for your existing equipment and future powder handling and containment needs.

About Dec

Founded in 1987, Dec is a leading global provider of powder handling systems to the pharmaceutical, chemical, food and cosmetic industries. Their turnkey and custom designed solutions have been successfully integrated into complex operations in hundreds of companies worldwide, both multi-nationals and specialists.

Without exception, Dec products are of the highest quality. The options are infinite to suit the requirements of a diverse customer base, turnkey and custom built, and modified as required. All systems are modular to ensure simple integration into existing processes.

Over the years Dec has enhanced its global presence by opening subsidiary offices in Europe, America and Asia, creating a genuinely global organization providing full local support. In 2008 Dec acquired the Jetpharma product range, which includes world beating micronizing and containment systems.

Dec are established experts - innovators with an unparalleled depth of knowledge in their field. Their products are of the highest quality, at times challenging convention, always providing unique, effective solutions for forward thinking organizations.

The Dec range covers every facet of powder handling, including:

- Transferring
- Filling
- Emptying
- Dosing
- Mixing
- Sampling
- Micronizing
- Milling
- Containment
